

# From The Principal's Diary

"A Hundred times every day I remind myself that  
My inner and outer life depended on  
The labors of the men, living and dead,  
And that I must exert myself in order to give in  
The same measure as I have received and am still receiving"  
---Albert Einstein

Dear Readers,

I am indeed very much pleased to write this sixth report of the college development for you! Although the college has achieved a turnaround progress in the last six years, we believe that there is always room at the top! Indeed complacency cannot have its place, if one needs to progress further.

Keeping this in mind, we introduced German Classes for the students as an exposure to foreign languages. Building youth entrepreneurship is need of the day, hence as a capacity building measure for youth & women, we organized three days Entrepreneurship Development Workshop in association with MILS, Mumbai.

The visit of Hon'ble Vice Chancellor of Mumbai University, Dr. Rajan Welukar to the College on the occasion of Academic Prize distribution program as the Chief Guest, truly electrified the atmosphere in the campus. I acknowledge with deep sense of gratitude the graceful presence of many Principals of nearby Colleges, for this program. The flagship program of this college, 'Matrudin' was celebrated with even more fervor when Advocate Aparna Ramteerthakar was awarded 'आदर्श वसुंधरा माता पुरस्कार'. The one day 'Hands on Training workshop' for the Teachers in Accountancy proved to be a fruitful experience while One Day Seminar on 'India-China Relations : Looking back & Looking ahead' gave different perspectives of International Relations & policy to the audience. The programs of various associations were conducted with innovations and creativity, tapping potentialities of the students.

The management has now taken up the construction work of Extension Building of the College & we hope to complete the same by December, 2014. The infrastructural development in terms of increased support system for the students, effective support provided through guardianship scheme of mentoring the students and use of technology in teaching & learning are the continued features of the college.

The Examination results of our students have always shown improvement. They are given separately. Besides this, one of the most remarkable achievements of our students, is Miss. Ruhi Mali of T.Y.B.A Economics who stood first amongst the ten Universities as a Blind student who was felicitated by National Association of Blind (NAB) at Nashik. The Association with KBMC, Rotary Club of Badlapur Industrial Area and University, various Colleges is strongly built and I place on record my gratitude towards all these institutions for their cooperation. The support by the management and contribution of all my staff members in marching ahead of this college is noteworthy. I acknowledge this with due praise.

Before I close my retrospection, I need to have a word with my dear student Friends.

As you are the architects of Modern India, you need to invent yourself to reinvent India.

It is said that,

Vision without action is imagination,  
Action without vision is division.  
But Action & Vision bring transformation.

So have Vision and aim at Action, so that you are able to transform Yourself to know yourself & bring out your latent skills. While in action, always follow a very very positive approach. At times, you may be unsuccessful, but you have to motivate yourself. The motivation which comes from within only lasts long. The management of time is very essential.

गते शीको त कतेव्यो ।  
भविष्यं नैव चिंतयेत ।  
वर्तमानेन कालेम् ।  
कर्तयन्ति विचक्षणः ।

That is why, wise men act by the present, so act on your decisions quickly. Let this be formed as an habit that you follow the deadlines & complete the job/projects well in advance. Priorities your work items. Your sustainable efforts to achieve the attainable goals only will lead you to the success. Therefore Attitude, Ambition & Action are 3 As required for attaining goals in your life. Always remember

'Going is Tough, but the Tough One only gets going!'

All the Best wishes for your Bright Future!

## PERFORMERS VS NON PERFORMERS

The Performer is always  
a part of the answer;  
The Non-performer is always  
a part of the problem.

The Performer always  
has a plan;  
The Non-performer always  
has an excuse.

The Performer says  
"let me do it for you";  
The Non-performer says  
"that's not my job".

The Performer sees an  
answer in every problem;  
The Non-performer sees a  
problem in every answer.

The Performer sees  
a green near every sandtrap;  
The Non-performer sees  
a sandtrap near every green.

The Performer says  
"it may be difficult but it's possible"  
The Non-performer says  
"it may be possible but it's difficult"

The Performer looks for  
an opportunity in problem/failure;  
The Non-performer looks for  
an excuse in problem/failure.
